ABOUT

Full-stack developer with expertise in React, Node.js, and AI-driven systems, building scalable, user-centric applications deployed for real-world impact.

EDUCATION

2025 - ongoing Masters at **Thapar Institute of Engineering and Tech.**

2025 - ongoing MBA (Online) at Vellore Institute of Tech.

2022 - 2025 Bachelor of Computer Application at **Vellore Institute of Tech.** (9.34/10.00)

WORK EXPERIENCE

Full Stack Engineer, Stocks Gurukul

Oct 2025 - Present

Designed and deployed a responsive financial education platform using React.js, building reusable components and integrating backend APIs for dynamic content. Live at: [stocksgurukul](https://stocksgurukul.com)

Web Developer, Pranissa

July 2025 - Sept 2025

Developed responsive web applications using React.js and TypeScript, ensuring cross-browser compatibility and optimized performance. Collaborated with clients to deliver functional solutions.

PROJECTS

Event Spot (Android Event Booking App)

GitHub

Developed a native Android event booking application using Java and Android SDK, implementing intuitive UI, dynamic navigation, and seamless booking workflows.

AI Career Path Recommendation System

GitHub

Built a scalable full-stack platform using Node.js and Python to deliver AI-driven career recommendations, designing REST APIs and optimizing MongoDB for secure and efficient data management.

Stocks Gurukul Platform

Developed and deployed a responsive React.js web platform with API integration and reusable components to deliver an interactive financial education experience for end users.

PUBLICATIONS

Kashish Bhasin, Anitha A., Anitha K., Aditya Singh, Balakrishnan Kamaraj. “Operational Excellence through AI, ML, and IoT,” in *Artificial Intelligence, Machine Learning and IoT for Smart Business Management*, Taylor & Francis, 2025. [Chapter link](#)

CERTIFICATIONS

SQL Workshop([SQL AI](#)), Python Workshop([Python AI](#))

SKILLS

Languages: Java, Python, JavaScript, TypeScript

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase, Android SDK

Core: Data Structures, OOP, REST APIs, Scalable Architecture
